

How to measure straps

Very Important: Please carefully read the instructions

About Custom Straps:

Custom order Straps are non-returnable and non-refundable once they are made to your measurements because they cannot be reused. Please make sure you measure your straps twice before placing your order. Follow our instructions on measuring straps below and follow exactly as we describe.

About Placing Your Order:

When measuring round to the closest 1/8". **DO NOT** add or take away to your measurements as this will cause your straps to be too tight or too loose.

Please, follow the exact measuring instructions.

The following pictures will guide your steps in how to measure your straps properly and submit your order to PatioChairSupplies.com

If our guidelines are not followed, it may cause your straps not to fit properly.

How to measure straps

HOW TO MEASURE SINGLE WRAP STRAPS

Step one: Identifying if it is a Single Wrap Strap

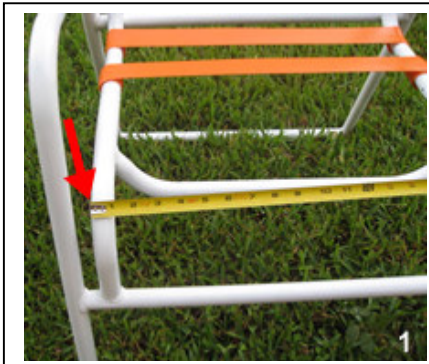

The Single Wrap Strap is identified by the location of the holes. They are located on the **inside portion** of the chair frame.

Step two: Measuring the width of the Strap

Using a flexible cloth or a plastic tape measure, measure the strap width. If it measures approximately 1 ¼", order 1 ½". If it measures approximately 1 ¾", order 2".

Step three: Measuring the length of the Single Wrap Strap

Measure the distance from the tip of the left **outside** frame (pic.1) to the tip of the right **outside** frame (pic.2). And, we show you the full length (pic.3)

How to measure straps

HOW TO MEASURE DOUBLE WRAP STRAPS

Step one: Identifying if it is a Double Wrap Strap

The Double Wrap Strap is identified by the location of the holes. They are located on the **bottom portion** of the chair frame.

Step two: Measuring the width of the Strap

Using a flexible cloth or a plastic tape measure, measure the strap width. If it measures approximately 1 ¼", order 1 ½". If it measures approximately 1 ¾", order 2".

Step three: Measuring the length of the Double Wrap Strap

Place measuring tape at center of the bottom hole on one side of the frame wrap around once and over the frame (see pic 1, 2, and 3)

How to measure straps

Measure the length to the tip of other side of the frame (see pic 4, and 5).
